

CREATIVE FIRE.

(EN) Fires are a central part of home comfort and can become a striking architectural addition to any living space. Ortal, in business since 1986, is well known for its wide selection of modern gas fires, produced with close attention to detail, finishing, heating efficiency and product quality. Ortal's products combine traditional & modern design with the technology innovation that ensures a green product with high efficiency ratings. Our technology innovations, such as our dual-line burner, double glazed glass and fan exhaust, produce eye catching fires that are safe, beautiful and economical. Our product innovation lets you install fires in more locations inside the home.

(DE) Kamine sind ein zentraler Bestandteil des Wohnkomforts und können eine markante architektonische Ergänzung jedes Wohnraums darstellen. Ortal, seit 1986 im Geschäft, ist bekannt für seine große Auswahl an modernen Gas-Kaminen, die mit viel Liebe zum Detail, und unter Berücksichtigung von Ausrüstung, Heiz-Effizienz und Produktqualität hergestellt werden. Ortals Produkte kombinieren traditionelles und modernes Design mit der technologischen Innovation, die ein umweltfreundliches Produkt mit hohem Wirkungsgrad gewährleistet. Unsere Technologie-Innovationen wie unsere Dual-Line-Brenner, Doppelverglasung und Abluftgebläse schaffen ins Auge springende Kamine, die sicher, schön und wirtschaftlich sind. Unsere Produktinnovation ermöglicht die Installation von Kaminen an verschiedenen Stellen innerhalb des Hauses.

(NL) Haardvuur vormt een centraal onderdeel van huiselijk comfort en kan een opvallend mooie architectonische aanvulling van elke leefruimte zijn. Ortal, opgericht in 1986, staat bekend om haar brede selectie moderne gashaarden, die geproduceerd zijn met aandacht voor detail, afwerking, efficiënte verwarming en productkwaliteit. De gashaarden van Ortal combineren een traditioneel en modern design met een technologische innovatie die een groen product met een hoge graad van efficiëntie verzekert. Onze technologische innovaties, zoals de dubbele brander, dubbel glas en een afzuigventilator bieden u een opvallend mooie haard die ook veilig en zuinig is.

Our 77 models, the largest selection of modern fireplaces in Europe and the US, are available in many sizes to suit your design and architectural needs, so heating can be integrated into the aesthetics of life. You're also welcome to consult with us regarding custom-made fires for special requirements, sizes and uses. Our high quality fires are CE and CSA approved and our dealers have a strong commitment to offer the best installation and service. Ortal fires are available in many countries through our approved dealers.

Unsere 77 Modelle, die größte Auswahl an modernen Kaminen in Europa und den USA, sind in vielen Größen erhältlich, um sich Ihrem Einrichtungsstil und Ihren architektonischen Bedürfnissen anzupassen, so kann die Heizmöglichkeit in die Ästhetik des Lebens integriert werden. Sie sind auch herzlich eingeladen, uns bezüglich maßgeschneiderter Kamine für spezielle Anforderungen, Größen und Zwecke zu konsultieren. Unsere hochwertigen Kamine haben eine CE- und CSA-Zulassung und unsere Händler bieten Ihnen ein starkes Engagement für beste Installation und Service. Ortal Kamine sind in vielen Ländern, bei von uns autorisierten Fachhändlern, erhältlich.

Onze product innovatie stelt u in staat een gashaard op meerdere locaties in uw huis te installeren. Onze 77 modellen, de grootste selectie van moderne open haarden in Europa en de VS, zijn beschikbaar in vele maten om aan uw wensen en architectonische behoeften te voldoen, zodat verwarming in de esthetiek van het leven geïntegreerd kan worden. U bent ook van harte welkom ons te raadplegen over op maat gemaakte haarden met speciale eisen, afmetingen en toepassingen. Onze kwaliteitshaarden zijn goedgekeurd door CE en CSA, en onze dealers verplichten zich u de beste installatie- en andere diensten te bieden. De haarden van Ortal zijn in vele landen via onze geselecteerde dealers beschikbaar.

THE FAN EXHAUST SYSTEM

EN

Exclusively by Ortal, our unique fan exhaust system solves the problem of installing fires in apartments and other places where fires could not be traditionally installed. Ortal's fan exhaust gives more flexibility in placing fires inside the house, since the flue uses long pipes (up to 30 meters in length) that are smaller in diameter (6-8 centimeters). These pipes can be then placed under the floor or inside walls and the fan can be installed anywhere.

DE

Einzigartig bei Ortal-Produkten ist unser Abluftgebläse, das das Problem der Installation von Kaminen in Wohnungen und an anderen Orten löst, wo Kamine traditionell nicht installiert werden konnten. Ortals Abluftgebläse bietet mehr Flexibilität bei der Platzierung von Kaminen im Inneren des Hauses, da der Abzug lange Röhre (bis zu 30 m Länge) mit kleinerem Durchmesser (6-8 cm) benutzt. Diese Röhre können dann unter dem Boden oder in Wänden platziert, und der Lüfter kann überall installiert, werden.

NL

Exclusief bij Ortal vindt u ons unieke ventilator uitlaatsysteem dat een oplossing biedt voor het installeren van haarden in appartementen en andere plaatsen waar het voordien onmogelijk was een haard te plaatsen. Ortals ventilator geeft meer flexibiliteit bij het plaatsen van een haard in huis, aangezien het rookkanaal lang is (tot 30 meter) en een kleine doorsnede heeft (6-8 cm). Deze leidingen kunnen onder de vloer of in binnenwanden geplaatst worden. De ventilator kan overal geïnstalleerd worden.

DUAL-LINE BURNER

EN

Ortal's dual line burner features two lines that can be controlled separately, ensuring the best visual effect and avoiding overheating. It is the only fire in the market that covers the full length of the fireplace even when working at a lower setting. When the two line burners are operated at full capacity, the room will be quickly heated. In warmer days the visual effect of the fire is preserved by operating just one line alongside the full length of the fireplace. The dual line burner is available in all models except clear 40 models.

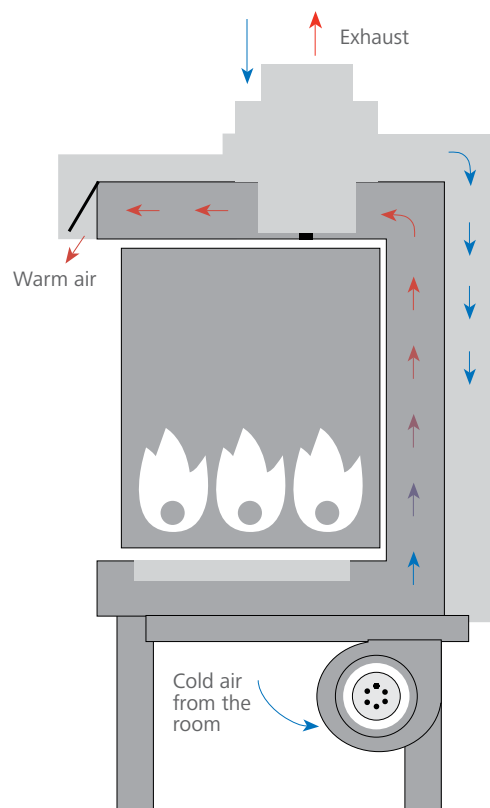

DE

Ortals Dual-Line-Brenner verfügt über zwei Linien, die separat angesteuert werden können, für eine bestmögliche visuelle Wirkung und zur Vermeidung von Überhitzung. Es ist das einzige Feuer auf dem Markt, die die gesamte Länge des Kamins abdeckt auch bei Arbeiten auf einer niedrigeren Einstellung. Wenn die beiden Line-Brenner mit voller Kapazität betrieben werden, wird der Raum schnell erwärmt. An wärmeren Tagen wird die visuelle Wirkung des Feuers durch Betätigen einer einzigen Zeile auf der vollen Länge des Kamins erhalten. Der Dual-Line-Brenner ist in allen Modellen außer den clear 40 Modellen erhältlich.

NL

De haard van Ortal met dubbele brander is voorzien van twee rijen die afzonderlijk regelbaar zijn, voor een prachtig visueel effect zorgen en oververhitting voorkomen. Het is de enige haard in de markt die over de volle lengte van de haard brandt, ook als de haard laag is ingesteld. Wanneer de twee rijen branders op volle capaciteit zijn ingesteld, zal de kamer snel warm worden. Op warmere dagen blijft het visuele effect van de haard bewaard door slechts één rij over de gehele lengte van de open haard aan te doen. Haarden met dubbele brander zijn verkrijgbaar in alle modellen behalve bij de clear 40 modellen.

BLOWER

- EN Ortal's fires can be delivered with a blower, for more even heat distribution.
- DE Ortals Kamine können für eine gleichmäßigere Wärmeverteilung mit Gebläse geliefert werden.
- NL De haarden van Ortal kunnen worden geleverd met een blower voor een meer gelijkmatige warmteverdeling.

DOUBLE GLAZED

- EN Ortal's fires can come with double glazed glass, to prevent glass overheating.
- DE Ortals Kamine können doppelverglast geliefert werden, um eine Überhitzung des Glases zu vermeiden.
- NL De haarden van Ortal kunnen worden geleverd met dubbel glas om oververhitting van het glas te voorkomen.

BACK REFLECTING INTERIOR

- EN Ortal's fires come with the option of a back reflecting mirror to create a more visually pleasing fire.
- DE Ortals Kamine können mit einem reflektierendem Spiegel als Hintergrund ausgestattet werden, um ein optisch ansprechenderes Feuer zu erschaffen.
- NL Bij de haarden van Ortal kunt u kiezen voor een reflecterend spiegeleffect voor een nog mooier vlammen spel.

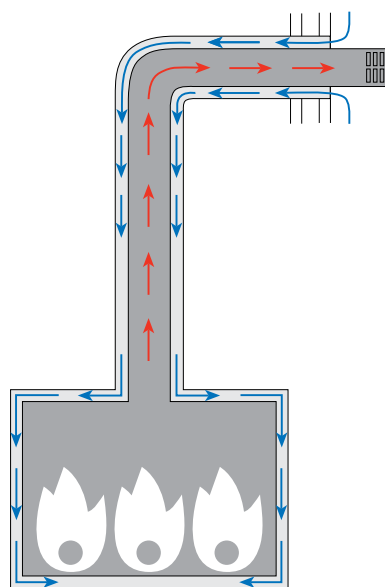

DOUBLE BRICK FLOATING EFFECT

- EN The double brick floating effect encases the glass from both sides, producing the visual appeal of an open fire.
- DE Der Doppel-Ziegel-Float-Effekt umgibt das Glas von beiden Seiten, wodurch sich die Optik eines offenen Feuers ergibt.
- NL Het flakkerende effect van dubbele bakstenen omhult het glas aan beide kanten, waardoor het visuele effect van een open vuur nog beter doorwerkt.

BALANCED FLUE

- EN All Ortal's fires feature a balanced flue. A balanced flue gas fire is room-sealed using a glass front. The flue uses natural ventilation to pull the air from outside and exhaust gases outside.
- DE Alle Ortal-Kamine sind mit einem symmetrischen Abzug ausgestattet. Das ausbalancierte Gaskamin-Feuer ist mit einer Glasfront versiegelt. Der Abzug verwendet natürliche Belüftung, um die Luft von außen zu ziehen und Abgase ausströmen zu lassen.
- NL Alle haarden van Ortal beschikken over een uitgebalanceerd rookkanaal. Bij een gashaard met een betrouwbaar rookkanaal is deze van de kamer afgesloten door een glazen plaat. Het rookkanaal wordt op natuurlijke wijze geventileerd door de lucht van buiten aan te trekken en de uitlaatgassen uit te stoten.

REMOTE CONTROL

- EN Ortal fires include a remote control device that controls ignition, a timer and thermostat. The remote control controls the dual-line burner, blower and fan exhaust.
- DE Ortals Kamine beinhalten eine Fernsteuervorrichtung, die die Zündung steuert, einen Timer und ein Thermostat. Die Fernsteuerung kontrolliert die zwei Dual-Line-Brenner, Lüfter und Abluftgebläse.
- NL De haarden van Ortal zijn voorzien van afstandsbediening om de ontsteking, de timer en de thermostaat in te stellen. De afstandsbediening regelt de dubbele brander, de blower en de ventilator.

A VARIETY OF FIRE INTERIORS

- EN The fires can be delivered with ceramic logs or pebbles in a variety of finishes.
- DE Die Kamine können mit Keramik-Holzspliten oder Kieselsteine in verschiedenen Ausführungen geliefert werden.
- NL De haarden kunnen geleverd worden met keramische houtblokken of kiezels in verschillende afwerkingen.

FRONT FACING FIRE

- EN Our front facing fire can be beautifully integrated into walls and architectural elements.
- DE Unsere nach vorn gerichteten Feuer können wunderbar in Wänden und architektonischen Elementen integriert werden.
- NL Onze fronthaard kan prachtig in wanden en architectonische elementen worden geïntegreerd.
